# EMC Compliance Testing Position

## Interesting and challenging position

Compliance Engineering Pty Ltd provide compliance testing, calibration and inspection services as well as the supply of specialised EMC equipment and RF shielded enclosures.

A new full time position has been created within the organisation. The position will involve the testing of electrical and electronic products against reference standards, preparing test reports and assisting with the installation and testing of RF shielded enclosures.

Ideally you will have completed formal studies in electronics (*Advanced Diploma in Electronic Engineering, Electronics Engineering Degree etc*).

The position would suit a candidate who has the following attributes:

- > Sound electronics knowledge
- > Able to use electronic test equipment (DSO, signal generator etc)
- > Computer literate (MS Word & Excel).
- > Good mechanical aptitude
- > A strong focus on detail (standards, reports, procedures etc)
- > Effective communicator with excellent spoken and written English skills
- > Demonstrates initiative
- > Able to work well independently, or as well as part of a small team
- > Holds Australian citizenship and a drivers license
- > Located in Melbourne eastern suburbs

Experience in the field of RF and/or EMC would be beneficial, but not necessary..

Remuneration will be based on level of study and relevant industry experience (if any).

Your application and covering letter should be submitted to: [info@compeng.com.au](mailto:info@compeng.com.au)

Only suitable candidates for interview will be notified.
